The Journal of Neurology and Psychopathology

VOLUME VII. 1926-27

INDEX.

INDEX.

ABELY, P.: A wandering Jew who developed delusions of persecution, 81.

ABRAHAM, KARL: Psychological relationship between sexuality and alcohol, 168.
— Psychoanalytic notes on Coué's method of self mastery, 178.

ABRAHAMSON, I. (and A. N. RABINER): Some phasic and permanent mutations in certain encephalitic syndromes, 68.

Abreaction treatment of conversion hysteria (R. S. GIBSON), 366.

Acetic anhydride test in cerebrospinal fluid (J. G. GREENFIELD and E. ARNOLD CARMICHAEL), 220.

Acoustic paths in man, central, Anatomical investigations on (I. NAGINO), 58.

Acromegalics: A contribution to the study of basal metabolism in (CESTAN, SENDRAIL and LASSALLE), 75.

ADAMS, G. S. (and LOE KANNER): General paralysis among the North American Indians, 354.

Adipose tissue: Nerve endings in (H. J. WILKINSON and A. N. BURKITT), 57.

AIRLIE, W.: Neurasthenia and inverted maternal instinct, 367.

Alcohol and sexuality: Psychological relationship between (KARL ABRAHAM), 168.

ALEXANDER, G. (and OTTO MARBURG, editors), *Handbuch der Neurologie des Ohres*, Volume III, review, 277.

ALEXANDER, MARION C.: Lilliputian hallucinations, 86.

ALLENBY, DR. (and others), *Le Rêve et la Psychoanalyse*, review, 378.

Alzheimer's disease, Case of (J. J. VISSER and G. P. FRETS), 173.

Amentia: Intestinal hepatic and renal lesions in cases of (C. MAZZANTI), 172.

Amok (H. CODET), 365.

Analytical fragment, an (T. C. GOOD), 47.

Anatomical investigations on the central acoustic paths in man (I. NAGINO), 58.

Apraxia, 351.

Arachnoiditis, adhesive spinal, simulating spinal cord tumour (BYRON and STOOKEY), 355.

Argyll Robertson pupil, *see* Pupil.

ARKIN, H. (and P. LEWIN): Case of unusual brachial plexus palsy, 159.

ARMSTRONG, EDWARD: The calcium content of serum in mental invalids, 372.

ARMSTRONG, G. E.: Relation of the cæcum-ascending colon content to idiopathic epilepsy, 257.

Astasia-abasia and speech perseveration, following carbon monoxide poisoning (H. G. WOLFF), 213.

Ataxia, Friedreich's (T. M. BARRETT), 347.

Athetosis, Experimental and anatomical researches on (M. MINKOWSKI), 152.

Aural disease in the insane (GEOFFREY W. ROBINSON), 332.

BABINSKI toe phenomenon, Theory of the mechanism for (A. M. RABINER and M. KESCHNER), 150.

BAILEY, PERCIVAL (and HARVEY CUSHING): *Tumours of the Glioma Group*, review, 94.

BAKER, JOHN R.: *Sex in Man and Animals*, review, 381.

BARBE (and SÉZARY): Investigation into the chemiotherapy of general paralysis, 268.

BARRETT, T. M.: Friedreich's ataxia, 347.

BARUK, HENRI: *Les Troubles Mentaux dans les Tumeurs Cérébrales*, review, 282.

Basal ganglia (G. VERCELLINI), 60.
— — in dementia præcox and epidemic encephalitis (C. FARRAN-RIDGE), 262.
— — in general paralysis: Histopathology of (T. L. HOULTON), 349.

Basal metabolism in acromegalics (CESTAN, SENDRAIL and LASSALLE), 75.

BASSOE, P. (and G. B. HASSIN): Parkinsonian states, 66.

BAUER, BERNARD A.: *Woman*, review, 379.

BEATON, THOMAS: The clinical relationships between psychological disorders, 83.

BEBB, G. L.: Memory deterioration in encephalitis lethargica, 84.

BECHTEREW, W.: *Allgemeine Grundlagen des Reflexologie des Menschen*, review, 286.

BECKER, S. W. (and P. A. O'LEARY): Further observations on the treatment of neurosyphilis with tryparsamide, 73.

Behaviour disorders, Postencephalitic, in boys, and their management in hospital (EARL D. BOND and G. E. PARTRIDGE), 359.

BELLONI, G. B.: The double autonomic innervation of voluntary muscles, 146.
— The study of neuritis, 153.

BERKELEY-HILL, O. A. R.: The incidence of neurosyphilis among coloured races, 353.
— Treatment by prolonged sleep in psychiatry, 375.

BERNADOU (and A. MARIE): Simultaneous hebephrenia in two brothers, 79.

BERNIS: The pathology of dystonia and dyskinesia, 347.

Bismuth, Intravenous injections of the salts of, in general paralysis (RUCHATEAU), 182.
— preparations in the treatment of tabes dorsalis and paresis (L. J. FOSTER and W. A. SMITH), 73.

BLANCHARD, PHYLLIS: Subject matter and motivation of children's dreams, 363.

Blood calcium and phosphorus in personality disorders (G. W. HENRY and W. W. EBELING), 169.
— pressure in some morbid conditions, Variability of (R. D. GILLESPIE), 255.
— serum of male admissions to Hanwell Mental Hospital; The Wassermann reaction in (G. A. LILLY and E. L. HOPKINS), 371.
— vascular conditions in psychoses (ISABELLA MCDOUGALL ROBERTSON), 264.

BLUM: Cisternal puncture, 61.

BODE, O. (and F. PARKES WEBER): Spontaneous subarachnoid hæmorrhage with recovery, 39.

BOLTEN, G. C.: Nature and pathogenesis of disseminated sclerosis, 153.

Boltz test in the cerebrospinal fluid after malarial therapy in general paralysis (G. W. T. H. FLEMING), 267.

BOND, EARL D. (and G. E. Partridge), Postencephalitic behaviour disorders in boys and their management in hospital, 359.

BOND, W. E. (and R. G. ROWE): *Epilepsy: a Functional Mental Illness; its Treatment*, review, 273.

BOREL, A. (H. CLAUDE and G. ROBIN): Traumatic dementia in the course of a state of instability of chronic manic type, 80.

BOUSFIELD, PAUL: *The Pathology, Diagnosis and Treatment of Functional Nervous Diseases*, review, 280.

BOUYER, HENRI (and MARTIN-SISTERTON): *L'Hygiène Mentale et Nerveuse Individuelle*, review, 379.

Brachial plexus palsy, *see* Palsy.

Brain, Mucous degeneration in the (D'HOLLANDER, RUBBENS and VAN BOGAERT), 152.

— tissue: Invasion and destruction of, by spongioblastoma (JOSHUA H. LEINER and WALTER M. KRAUS), 227.

— Tuberculoma of the (W. P. VAN WAGENEN), 357.

— tumour, *see* Tumour.

— volume: Effect of magnesium sulphate on (E. J. MORRISSEY), 147.

BRANHAM, V. C.: Epileptoid reactions in children, 70.

BRIDGES, JAMES W.: *An Outline of Abnormal Psychology*, review, 285.

BRILL, A. A.: Psychotic children: prophylaxis and treatment, 181.

BRISTOWE, HUBERT C.: Suggestions on the psychology of mental deficiency, 265.

BROCK, S. (P. M. CARROLL and L. STEVENSON): Encephalitis periaxialis diffusa of Schilder, 68.

Bromides in functional psychoses, Results obtained from the intensive use of (WILLIAM W. WRIGHT), 89.

BROWN, GILBERT: Postoperative psychosis, 369.

BROWN, M. F. FORRESTER (and R. G. GORDON): Meningismus of obscure origin following stretching of the adductors of the hips, 233.

BROWN, WILLIAM: The psychology of character, 31, 125.

BUCHHEISTER (and MOOG): Sweat secretion in man, 147.

Bulbar syndrome predominantly interolivary; progressive vascular changes with hypoplasia and neuromata of the medulla and spinal cord (G. MARINESCO and G. DRAGANESCO), 251.

Bulbocapnine, action of, in three cases of paralysis agitans and one case of tremor of paralysis agitans type (H. DE JONG and W. HERMAN), 256.

BUMKE, OSWALD: The revision of the problem of the neuroses, 163.

BUNKER, H. A.: Significance of gain of weight in malaria treatment of general paralysis, 182.

— Type of onset in relation to clinical type in general paralysis, 354.

BURKITT, A. N. (and H. J. WILKINSON): Nerve endings in adipose tissue, 57.

BURR, H. S. (and S. C. HARVEY): The development of the meninges, 151.

BUSCAINO, V. M.: The pathogenesis of epidemic encephalitis and of chronic postencephalitic syndromes, 153.

BYRNE, J.: The pupils in somatic and visceral disorders in association with referred pain and hyperalgesia, 158.

BYRNES, C. M.: Contribution to the study of paralysis agitans, 246.

BYRON (and STOOKEY): Adhesive spinal arachnoiditis simulating spinal cord tumour, 355.

CACHEXIA, Hypophyseal (C. I. URECHIA and N. ELEKES), 361.

Calcium content of serum in mental invalids (EDWARD ARMSTRONG), 372.

CAPGRAS, J. (and J. REBOUL-LACHAUX): Systematic destructiveness, 79.

— Some varieties of erotomania, 80.

Carbon monoxide poisoning, followed by astasia-abasia and speech perseveration (H. G. WOLFF), 213.

CARMICHAEL, E. ARNOLD (and J. G. GREENFIELD): The acetic anhydride test in cerebrospinal fluid, 220.

CARROLL, P. M. (S. BROCK and L. STEVENSON): Encephalitis periaxialis diffusa of Schilder, 68.

CEILLIER, A.: A need of support, transformed to delusions of influence, in a psychasthenic patient, 76.

Cells, anterior horn: Human adult and embryo (W. M. KRAUS and A. WEIL), 58.

Cells of the cerebrospinal fluid: Fixation of, with iodine vapour (R. S. CUNNINGHAM and L. S. KUBIE), 60.

CENAC, M. (and J. CUEL): 'Postencephalitic Parkinsonism and a depressive psychosis, 79.

— Neologistic logorrhœa in a case of chronic hallucinatory insanity, 81.

Cerebellar megalographia and Parkinsonian micrographia, Antagonism between (M. PETIT-PIERRE), 67.

Cerebellum: The relation of, to the static system and its role in posture synergy (J. RAMSAY HUNT), 60.

Cerebral automatism: Complex and co-ordinated actions carried out during epileptic crises of (TOULOUSE, MARCHAND and LITVAK), 71.

— peduncle, and hypothalamus, Experiments on (D'ABUNDO), 346.

— tumour, *see* Tumour.

Cerebrospinal fluid: Acetic anhydride test in (J. G. GREENFIELD and E. ARNOLD CARMICHAEL), 220.

— — Boltz test in, after malarial therapy in general paralysis (G. W. T. H. FLEMING), 267.

— — Fixation of the cells of, with iodine vapour (R. S. CUNNINGHAM and L. S. KUBIE), 60.

— — pressure: Effect of magnesium sulphate on (E. J. MORRISSEY), 147.

— — Spontaneous escape of, through the nose (C. E. LOCKE), 63. *See also* Spinal Fluid.

CESTAN (SENDRAIL and LASSALLE): A contribution to the study of basal metabolism in acromegalics, 75.

Character, The psychology of (WILLIAM BROWN), 31, 125.

Character and abnormal psychology (W. S. TAYLOR), 364.

CHEVENS, L. C. F. (and P. B. MUMFORD): The sudorific reaction in certain types of psychosis, 166.

Chicken pox and herpes zoster, *see* Herpes Zoster.

Child murder and insanity (J. STANLEY HOPWOOD), 373.

Childbirth: Psychoses occurring in (ELIZABETH KILPATRICK and HARRY M. TIEBOUT), 368.

Chin: The cutaneous reflex of the (DE CASTRO), 73.

Chordotomy, Experimental basis of (E. A. SPIEGEL), 149.

Chorea with cirrhosis of liver (GEORG SCHALTENBRAND), 154.

— Sydenham's, Experimental studies on (E. HERMAN), 65.

CHUNG, MON-FAH: Thrombosis of the spinal vessels in sudden syphilitic paraplegia, 355.

Circulatory ratings in mentally defective adolescent children (PHILIP J. TRENTZSCH), 172.

Circumcision and the abreaction of fear (ESTELLE M. COLE), 237.

Cirrhosis of liver with chorea (GEORG SCHALTENBRAND), 154.

Cisternal puncture (BLUM), 61.

CLARK, L. P.: A psychoanalytic introduction to the study of conduct disorders of encephalitis lethargica, 85.

CLARK, L. PIERCE: The use of sedatives, tonics, endocrines, etc., in the re-educational training of the epileptic, 358.

— Study of the psychogenesis of confirmed stammerers, 166.

CLARK, R. M.: The Meinicke micro-reaction for syphilis for use in a mental hospital, 265.

CLAUDE, H. (A. BOREL and G. ROBIN): Traumatic dementia in the course of a state of instability of chronic manic type, 80.

CLÉRAMBAULT, G. DE (and LAMACHE): A case of simple erotomania lasting 37 years, 79.

— An impulse conscious and without amnesia, probably epileptic, 81.

COBB, STANLEY: Review on the tonus of skeletal muscle, 245.

COCCHIARARO (and RORDORF): Palilalia—a rare symptom of the postencephalitic Parkinsonian syndrome, 66.

CODET, H. (and R. TARGOWLA): An inveterate wanderer with amputated legs, 81.

CODET, H.: Foreign psychoneuroses: amok and latah in Malays, 365.
COLE, ESTELLE M.: Circumcision and the abreaction of fear, 237.
COLEMAN, C. C.: Extensor rigidity following a penetrating wound of both hemispheres, 156.
Colloidal gold solutions, correction of as applied to the Lange reaction (N. NOVICK), 61.
Colon content, Cæcum-ascending: Relation of, to idiopathic epilepsy (G. E. ARMSTRONG), 257.
COMAN, F. D.: Relation of the sympathetic nervous system to skeletal muscle tonus, 146.
COMFORT, M. W.: Yellow spinal fluid associated with tumour of the brain, 63.
Conduct disorders of encephalitis lethargica (L. P. CLARK), 85.
Convulsive and psychical disorders: Surgical treatment of (CECIL E. REYNOLDS), 289.
COPPEZ (and RAINS): Examination of the pupil, 157.
CORBERI, G.: Syndromes of preadolescent mental regression, 265.
CORE, DONALD E.: Some clinical aspects of certain emotions, 82.
Corpus striatum and lenticular nucleus, connections of, with the rest of the brain (C. v. MONAKOW), 59.
Cortex: Pathological alterations of, caused by psychoses (O. MARBURG), 80.
COTTRELL, SAMUEL SMITH (and S. A. KINNIER WILSON): The affective symptomatology of disseminated sclerosis, 1.
COUÉ'S method of self-mastery: Psychoanalytic notes on (KARL ABRAHAM), 178.
Cranial injuries, criminality in (POROT), 173.
Crime and its causes (WILLIAM D. TAIT), 372.
— and insanity (WILLIAM A. WHITE), 174.
Criminality in cranial injuries (POROT), 173.
Criminals, Sterilization of (RENATO KEHL), 89.
CROOKSHANK, F. G.: *Migraine and other Common Neuroses*, review, 192.
CUEL, J. (and M. CENAC): Postencephalitic Parkinsonism and a depressive psychosis, 79.
CUNNINGHAM, R. S. (and L. S. KUBIE): Fixation of the cells of the cerebrospinal fluid with iodine vapour, 60.
CUSHING, HARVEY (and PERCIVAL BAILEY): *Tumours of the Glioma Group*, review, 94.
Cyclothymia, Pathogenesis and significance of (P. PRENGOWSKI), 261.

D'ABUNDO: Experiments on the hypothalamus and cerebral peduncle, 346.
DAMON, LE GRAND A. (H. A. PATTERSON and P. LEVI): Study of the various methods of the administration of luminal in epilepsy, 161.
Danish Reports (edited by AUGUST WIMMER), Volume III, review, 96.
DAVIES, ARTHUR ERNEST: An interpretation of mental symptoms in dementia præcox, 370.
DE CASTRO: The cutaneous reflex of the chin, 73.
Degenerates, Sterilization of (RENATO KEHL), 89.
DE JONG, H. (and W. HERMAN): Action of bulbocapnine in three cases of paralysis agitans and one case of tremor of paralysis agitans type, 256.
Delirium, A Study of (LLOYD H. ZIEGLER), 368.
Delusions of persecution developed by a wandering Jew (P. ABELY), 81.
Dementia paralytica: Malarial therapy in: Report from the London County Mental Hospitals Service, 268.
— præcox: Symptoms referable to basal ganglia in (C. FARRAN-RIDGE), 262.
— — Cyanosis of: A study of gas relationships of the blood, with clinical observations (LILLIAN SEGAL and LELAND E. HINSIE), 369.
— — Frequency of, in relation to sex, age, environment, nativity and race (HORATIO M. POLLOCK), 263.
— — Interpretation of mental symptoms in (ARTHUR ERNEST DAVIES), 370.
— — Post-influenzal, an analysis of (KARL H. MENNINGER), 77.
— — The suprarenal cortex and blood cholesterol in (CHARLES E. GIBBS), 75.
Dementia præcox in identical twins (G. H. PARKER), 168.
— Traumatic, in the course of a state of instability of chronic manic type (H. CLAUDE, A. BOREL and G. ROBIN), 80.
DEREUX, JULES: *Paralysie verticale du regard (Syndrome de Parinaud)*, review, 383.
DE SAUSSURE, R. (and others): *Le Rêve et la Psychanalyse*, review, 378.
Destructiveness, Systematic (J. CAPGRAS and J. REBOUL-LACHAUX), 79.
DEUTSCHE, FELIX: The influence of emotional changes on energy metabolism: Hypnotic experiments, 170.
D'HOLLANDER (RUBBENS and VAN BOGAERT): Research on mucous degeneration in the brain, 152.
Disease, Seven cases of a peculiar family (GUSTAVE ROUSSY and GABRIELLE LÉVY), 155.
Disseminated sclerosis, *see* Sclerosis.
DODEL, WILHELM: Treatment of schizophrenic disorders, 185.
DRAGANESCO, S. (and G. MARINESCO): Bulbar syndrome predominantly interolivary: progressive vascular changes with hypoplasia and neuromata of the medulla and spinal cord, 251.
Dreams, Children's: Subject matter and motivation of (PHYLLIS BLANCHARD), 363.
— Snake symbolism in (URSULA H. MCCONNEL), 162.
— (ERNEST JONES), 162.
DUNNE, JOHN: The malarial treatment of general paralysis, 182.
Dyskinesia, Pathology of (BERNIS), 347.
Dystonia, Pathology of (BERNIS), 347.

EAGER, RICHARD: *Hints to Probationer Nurses in Mental Hospitals*, review, 286.
EASTERBROOK, C. C.: *Mental Invalids*, review, 93.
EBAUGH, F. G. (and E. A. STRECKER): Psychoses occurring during the puerperium, 167.
EBELING, W. W. (and G. W. HENRY): Blood calcium and phosphorus in personality disorders, 169.
EDDISON, H. WILFRED: The mental factor in miners' nystagmus, 75.
Electrical resistance of the body during sleep, changes in the (C. P. RICHTER), 148.
ELEKES, N. (and C. I. URECHIA): Hypophyseal cachexia, 361.
Emotional changes, influence of, on energy metabolism (FELIX DEUTSCHE), 170.
Emotions, clinical aspects of certain (DONALD E. CORE), 82.
Endarteritis obliterans in the brain of a Mongolian imbecile (R. M. STEWART), 338.
Encephalitis, epidemic, chronic (P. K. MCCOWAN and J. S. HARRIS), 361.
— — Chronic: Tonic eye fits ("oculogyr crises") in (AUGUST WIMMER), 252.
— — The relation of epidemic hiccup (singultus) to (E. C. ROSENOW), 65.
— — Irresistible mastication during (P. J. ZENTAY), 357.
— — Pathogenesis of (V. M. BUSCAINO), 153.
— — Spinal fluid sugar in (C. J. MUNCH-PETERSEN and KNUD WINTHER), 247.
— — Symptoms referable to basal ganglia in (C. FARRAN-RIDGE), 262.
— lethargica: Conduct disorders of, a psychoanalytic introduction to the study of (L. P. CLARK), 85.
— — Memory deterioration in (G. L. BEBB), 84.
— periaxialis diffusa of Schilder (S. BROCK, P. M. CARROLL and L. STEVENSON), 68.
— syndromes: Some phasic and permanent mutations in certain (I. ABRAHAMSON and A. N. RABINER), 68.
— — *see also* Postencephalitis.
Endocrine therapy and the psychoses (CHARLES B. MOLONY), 362.
Energy metabolism: Influence of emotional changes on: Hypnotic experiments (FELIX DEUTSCHE), 170.

ENG, H.: *Experimental Investigations into the emotional life of the Child compared with that of the Adult*, review, 274.
Epilepsy (W. ALDREN TURNER), 194.
— Idiopathic: Relation of the cæcum-ascending colon content to (G. E. ARMSTRONG), 257.
— Luminal administration in, Study of the various methods of (H. A. PATTERSON, LE GRAND A. DAMON and P. LEVI), 161.
— Organic: Psychoanalytic study of (K. A. MENNINGER), 177.
— Research problems in (CHARLES E. GIBBS), 70.
— The use of sedatives, tonics, endocrines, etc., in the re-educational training treatment of (L. PIERCE CLARK), 358.
— crises of cerebral automatism: Complex and co-ordinated actions carried out during (TOULOUSE, MARCHAND and LITVAK), 71.
Epileptoid reactions in children (V. C. BRANHAM), 70.
ERB'S lateral sclerosis (VAN BOGAERT and LEY), 358.
Erotomania lasting 37 years (G. DE CLÉRAMBAULT and LAMACHE), 79.
— Some varieties of (J. CAPGRAS), 80.
Extroversion and introversion, Measuring (EDNA HEIDBREDER), 363.
Eye fits, Tonic, in chronic epidemic encephalitis (AUGUST WIMMER), 252.
Eye motif in delusion and phantasy (PHYLLIS GREENACRE), 85.
— movements in the vertical direction, Problems of (OTTO MARBURG), 253.

FACIAL paresis, *see* Paresis.
Family disease, *see* Disease.
FARANI, ALBERTO: Surgery and mental hygiene, 88.
FARRAN-RIDGE, C.: Some symptoms referable to the basal ganglia occurring in dementia præcox and epidemic encephalitis, 262.
Fatigue: a clinical study (R. D. GILLESPIE), 97.
Fear, Abreaction of, and circumcision (ESTELLE M. COLE), 237.
FERENCZI, SANDOR: *Further contributions to the Theory and Technique of Psychoanalysis*, review, 381.
Fits, Unexpected (GORDON F. PETERS), 71.
FLEMING, G. W. T. H.: The Boltz test in the cerebrospinal fluid after malarial therapy in general paralysis, 267.
Foreign psychoneuroses: amok and latah in Malays (H. CODET), 365.
FOSTER, L. J. (and W. A. SMITH): The use of bismuth preparations in the treatment of tabes dorsalis and paresis, 73.
FOSTER, ROBERT H.: Paresis in the negro, 87.
FRANKLIN, E. A.: Function of neurological tissue, 57.
FREEMAN, WALTER: The radix spinalis trigemini and the principle of usurpation, 244.
FRETS, G. P. (and J. J. VISSER): A case of Alzheimer's disease, 173.
FREUD, S.: *Collected Papers*, Volume IV, review, 189.
Friedreich's ataxia (T. M. BARRETT), 347.
— disease, The abortive type of (C. R. ROMBOLD and H. A. RILEY), 254.
Frontal lobe tumours, *see* Tumours.

GANGLIA, The basal (G. VERCELLINI), 60.
Gas poisoning (War), followed by spasmodic torticollis and chronic hepatitis (VAN BOGAERT), 154.
GIBBS, CHARLES E.: Research problems in epilepsy, 70.
— The suprarenal cortex and blood cholesterol in dementia præcox, 75.
GIBSON, R. S.: A case of conversion hysteria, with some remarks on treatment by the method of abreaction, 366.
GILLESPIE, R. D.: Fatigue: a clinical study, 97.
— The oculo-cardiac reflex: its clinical significance, 253.
— The variability of the blood pressure in some morbid conditions, 255.
— (and T. A. ROSS): Progression and regression in two homosexuals, 313.
GLASER: The present position of vegetative nervous therapy, 74.
Glioblastoma, *see* Tumour, cerebral.
GLOVER, JAMES: Divergent tendencies in psychotherapy, 271.
GODDARD, HENRY HERBERT: A case of dual personality, 366.
Gold, Colloidal: Correction of solutions of, as applied to the Lange reaction (N. NOVICK), 61.
GOOD, T. C.: An analytical fragment, 47.
GORDON, ALFRED: Obsessions in their relation to psychoses, 78.
GORDON, R. G. (and M. F. FORRESTER BROWN): Meningismus of obscure origin following stretching of the adductors of the hips, 233.
— *Personality*, review, 281.
GRANT, A. R. (and J. D. SILVERSTON): General paralysis and treatment by malaria, 90.
Grasping, Involuntary, and analogous disorders of movement (PAUL SCHUSTER and HERMANN PINEAS), 250.
GREENACRE, PHYLLIS: The eye motif in delusion and phantasy, 85.
GREENFIELD, J. G. (and E. ARNOLD CARMICHAEL): The acetic anhydride test in cerebrospinal fluid, 220.
GUREWITSCH, M.: The pathological anatomy of general paralysis after malaria treatment, 349.

HÆMORRHAGE, Intracranial, in the newborn: Signs of acute proved cases of (A. S. MACLAIRE), 69.
— Spontaneous subarachnoid, with recovery (F. PARKES WEBER and O. BODE), 39.
Hallucinations, Lilliputian (MARION C. ALEXANDER), 86.
— The affective states in (RAOUL LEROY), 86.
Hallucinatory insanity, chronic: Neologistic logorrhœa in a case of (M. CENAC), 81.
HALPHEN, E. (and J. LÉVY-VALENSI): *Les Vertiges*, review, 384.
HARRIS, J. S. (and P. K. MCCOWAN): Chronic epidemic encephalitis, 361.
Harvard Medical School: Studies from the Department of Neurology. Volume VII, review, 96.
HARVEY, S. C. (and H. S. BURR): The development of the meninges, 151.
HASSIN, G. B. (and P. BASSOE): Parkinsonian states, 66.
HAUSMAN, LOUIS (and B. SACHS): *Nervous and Mental Disorders from Birth through Adolescence*, review, 92.
HEAD, HENRY: *Aphasia and Kindred Disorders of Speech*, review, 376.
Hebephrenia, Simultaneous, in two brothers (A. MARIE and BERNADOU), 79.
HEIDBREDER, EDNA: Measuring introversion and extroversion, 363.
HENRY, G. W. (and W. W. EBELING): Blood calcium and phosphorus in personality disorders, 169.
Hepatitis, Chronic, and spasmodic torticollis, following poisoning by war gases (VAN BOGAERT), 154.
Hepato-lenticular degeneration; clinical, anatomical, and experimental study (IVAN MAHAIM), 67.
HERMAN, W. (and H. DE JONG): Action of bulbocapnine in three cases of paralysis agitans and one case of tremor of paralysis agitans type, 256.
Herpes zoster and chicken-pox (W. M. v. D. SCHEER), 158.
HESKETH, FLORENCE E. (and F. I. WERTHEIMER): *The Significance of the Physical Constitution in Mental Disease*, review, 383.

Hiccup, Epidemic (singultus), The etiology of, and its relation to encephalitis (E. C. Rosenow), 65.
Hinsie, Leland E. (and Lillian Segal): The cyanosis of dementia præcox; a study of gas relationships of the blood, with clinical observations, 369.
Hoff (and Pollak): Experimental studies in parasyphilis, 350.
Hohman: Pathological and anatomical investigations on postencephalitic Parkinsonism, 348.
Holland, E.: Bifurcation of the spinal cord, 64.
Homosexuals, Two: Progression and regression in (R. D. Gillespie and T. A. Ross), 313.
Hopkins, E. L. (and G. A. Lilly): The Wassermann reaction in the blood-serum of male admissions to Hanwell Mental Hospital, 371.
Hopwood, J. Stanley: Child murder and insanity, 373.
Horn cells, anterior; Human adult and embryo (W. M. Kraus and A. Weil), 58.
Horrax, G.: Differential diagnosis of tumours primarily pineal and primarily pontile, 357.
Hortega's work on neuroglia, 151.
Houlton, T. L.: General paralysis: The histopathology of the basal ganglia, 349.
Human work: The psychic element in (Carlos Penafiel), 181.
Hunt, J. Ramsay: The relation of the cerebellum to the static system and its role in posture synergy, 60.
Hydrocephalus, Chronic internal, due to ependymitis granularis (Sarah H. Nelson), 117.
Hypnotic experiments, 170.
Hypophyseal cachexia (C. I. Urechia and N. Elekes), 361.

Nervous and Mental Disorders from Birth through Adolescence (B. Sachs and Louis Hausman), 92.

Nervous System: The Clinical Examination of the (G. H. Monrad-Krohn). Third edition, 285.

Nervous System, Diseases of (H. Campbell Thomson and George Riddoch). Fourth edition, 192.

Neurology: Leitfaden der neurologischen Diagnostik: eine Differentialdiagnose aus dem führenden symptom für praktische Ärzte und Studierende (Kurt Singer). Second edition, 95.

Neurology: Etudes de Clinique et Pathologie Nerveuse (D. Paulian), 278.

Neurology: Handbuch der Neurologie des Ohres (edited by G. Alexander and O. Marburg), Volume III, 277.

Nurses in Mental Hospitals: Hints to Probationers. Second edition. (Richard Eager), 286.

Nystagmus: Das Augenzittern als Gehirnstrahlung: ein Atlas der Augenzitternkurven (Johannes Ohm), 277.

Paralysie verticale du régard (Syndrome de Parinaud) (Jules Dereux), 383.

Personality (R. G. Gordon), 281.

Personality: Allgemeine Grundlagen der Reflexologie des Menschen. Third edition. (W. Bechterew), 286.

Psychoanalysis: Further contributions to the Theory and Technique of (Sandor Ferenczi. Translated from the German by Jane Isabel Suttie and others), 381.

Psychoanalysis: Le Rêve et la Psychanalyse (R. Laforgue, Dr. Allenby, Ed. Pichon and R. de Saussure), 378.

Psychological Healing (Pierre Janet. Translated by E. and C. Paul), 283.

Psychology, Abnormal: Outline of (James W. Bridges). Third edition, 285.

Psychotherapy (Edward W. Taylor), 285.

Sex in Man and Animals (John R. Baker), 381.

Tumours, Cerebral: Les Troubles Mentaux dans les Tumeurs Cérébrales (Henri Baruk), 282.

Tumours of the Glioma Group: A Classification on a histogenetic basis with a correlated study of prognosis (Percival Bailey and Harvey Cushing), 94.

Vertebral column: Les Affections de la Colonne Vertébrale (André Léri), 282.

Vertigo: Les Vertiges (J. Levy-Valensi and E. Halphen), 384.

Woman (Bernard A. Bauer. Translated by E. S. Jerdan and Norman Haire), 379.

Reynolds, Cecil E.: Surgical treatment of certain convulsive and psychical disorders, 289.

Richter, C. P.: The significance of changes in the electrical resistance of the body during sleep, 148.

Riddoch, George (and H. Campbell Thomson): *Diseases of the Nervous System*. Fourth edition, review, 192.

Rigidity, Extensor, following a penetrating wound of both hemispheres (C. C. Coleman), 156

— Congenital regressive (Philippe van Bogaert and Sweerts), 352.

Riley, H. A. (and C. R. Rombold): The abortive type of Friedreich's disease, 254.

Robertson, George M.: The prevention of insanity, 266.

Robertson, Isabella McDougall: Blood-vascular conditions in psychoses, 264.

Robin, G. (H. Claude and A. Borel): Traumatic dementia in the course of a state of instability of chronic manic type, 80.

Robinson, Geoffrey W.: Aural disease in the insane, 332.

Rombold, C. R. (and H. A. Riley): The abortive type of Friedreich's disease, 254.

Romer, C.: Psychocatharsis and psychoanalysis, 186.

Rordorf (and Cocchiararo): Palilalia—a rare symptom of the postencephalitic Parkinsonian syndrome, 66.

Rosenow, E. C.: Further studies on the etiology of epidemic hiccup (singultus), and its relation to encephalitis, 65.

Ross, T. A. (and R. D. Gillespie): Progression and regression in two homosexuals, 313.

Roussy, Gustave (and Gabrielle Levy): Seven cases of a peculiar family disease, 155.

Rowe, R. G. (and W. E. Bond): *Epilepsy: a Functional Mental Illness: its Treatment*, review, 273.

Rubbens (D'Hollander and Van Bogaert): Research on mucous degeneration in the brain, 152.

RUCHATEAU: Intravenous injection of bismuth salts in general paralysis, 182.

SACHS, B. (and LOUIS HAUSMAN): *Nervous and Mental Disorders from Birth through Adolescence*, review, 92.
SAGIN, K.: The reflex of the external malleolus and Piotrowski's phenomenon, 72.
SARKER, GERTRUDE (and JOHN W. VISCHER): The neurotic goal in post-war neuroses, 77.
SCHALTENBRAND, GEORG: Case of chorea with cirrhosis of liver, 154.
SCHEER, W. M. v. D.: Herpes zoster and chickenpox, 158.
SCHIFF, P. (and L. MARCHAND): Cerebral tumour (glioblastoma) with early psychasthenic syndrome, 249.
Schilder, Encephalitis periaxialis of, *see* Encephalitis.
SCHILDER (and POLLAK): The significance of extrapyramidal mechanisms for the translation of the movement-idea into action, 351.
SCHINDLER, RUDOLF: Psychotherapy for the specialist in organic disease, 188.
Schizophrenia and influenza: an analysis of post-influenzal dementia præcox as of 1918 and five years later (KARL H. MENNINGER), 77.
— Prognosis in (EDWARD A. STRECKER and GORDON F. WILLEY), 373.
— Psychogalvanic studies in (H. C. SYZ), 370.
Schizophrenic disorders, Treatment of (WILHELM DODEL), 185.
SCHMIDT, ROBERT: Prognostic significance of a primarily negative spinal fluid in syphilis, 160.
SCHUSTER, P. (and H. TATERKA): The anatomy and clinical aspects of pure word-deafness, 249.
— (and HERMANN PINEAS): Further observations on involuntary grasping and analogous disorders of movement, 250.
Sclerosis, Disseminated, associated with epilepsy, (F. J. NATTRASS), 139.
— — Nature and pathogenesis of (G. C. BOLTEN), 153.
— — Affective symptomatology of (SAMUEL SMITH COTTRELL and S. A. KINNIER WILSON), 1.
— Erb's lateral (VAN BOGAERT and LEY), 358.
— Multiple: Sensory disturbances in, their significance in diagnosis (OTTO SITTIG), 69.
SEGAL, LILLIAN (and LELAND E. HINSIE): The cyanosis of dementia præcox: a study of gas relationships of the blood, with clinical observations, 369.
SENDRAIL (CESTAN and LASSALLE): A contribution to the study of basal metabolism in acromegalics, 75.
Serum in mental invalids, the calcium content of (EDWARD ARMSTRONG), 372.
Sex life in college man (M. W. PECK), 87.
Sexuality and alcohol: Psychological relationship between (KARL ABRAHAM), 168.
SÉZARY (and BARBÉ): Investigation into the cnemiotherapy of general paralysis, 268.
SILVERMAN, NATHANIEL E. (and WALTER M. KRAUS): Facial paresis as a manifestation of tumours of the upper half of the cervical spinal cord, 132.
SILVERSTON, J. D. (and A. R. GRANT): General paralysis and treatment by malaria, 90.
SINGER, KURT: *Leitfaden der neurologischen Diagnostik: eine Differentialdiagnose aus dem führenden symptom für praktische Ärzte und Studierende*. Second edition, review, 95.
SITTIG, OTTO: Sensory disturbances in multiple scleroses: their significance in diagnosis, 69.
Skeletal muscle, *see* Muscle.
Sleep: Changes in the electrical resistance of the body during (C. P. RICHTER), 148.
— Prolonged: Treatment by, in psychiatry (O. A. R. BERKELEY-HILL), 375.
SMITH, W. A. (and L. J. FOSTER): The use of bismuth preparations in the treatment of tabes dorsalis and paresis, 73.
Snake symbolism in dreams (URSULA H. MCCONNEL), 162; (ERNEST JONES), 162.
SPIEGEL, E. A.: Experimental basis for chordotomy, 149.
Spinal arachnoiditis simulating spinal cord tumour (BYRON and STOOKEY), 355.
— cord: Bifurcation of the (E. HOLLAND), 64.
— cord tumour, *see* Tumour.
— fluid in meningitis: Significant chemical changes in (M. OSNATO and J. A. KILLIAN), 62.
— fluid sugar in cases of epidemic encephalitis and other nervous disease (C. J. MUNCH-PETERSEN and KNUD WINTHER), 247.
— fluid, Yellow: Associated with tumour of the brain (M. W. COMFORT), 63.
Spongioblastoma and the destruction of brain tissue (JOSHUA H. LEINER and WALTER M. KRAUS), 227.
Stammerers, Confirmed: Psychogenesis of (L. PIERCE CLARKE), 166.
Static system: The relation of the cerebellum to the (J. RAMSAY HUNT), 60.
STEEL, JOHN P. (and J. ERNEST NICOLE): Results of a second induction of malaria in general paralysis of the insane, 208.
Sterilization of extreme degenerates and criminals (RENATO KEHL), 89.
— of mental defectives, 269.
STEVENSON, L. (S. BROCK and P. M. CARROLL): Encephalitis periaxialis diffusa of Schilder, 68.
STEWART, R. M.: The problem of the Mongol, 86.
— The presence of endarteritis obliterans in the brain of a Mongolian imbecile, 338.
STOOKEY (and BYRON): Adhesive spinal arachnoiditis simulating spinal cord tumour, 355.
STRECKER, E. A. (and F. G. EBAUGH): Psychoses occurring during the puerperium, 167.
— (and GORDON F. WILLEY): Prognosis in schizophrenia, 373.
Subarachnoid hæmorrhage, Spontaneous, with recovery (F. PARKES WEBER and O. BODE), 39.
Sudorific reaction in certain types of psychosis (L. C. F. CHEVENS and P. B. MUMFORD), 166.
Sugar, Spinal fluid, *see* Spinal fluid.
Suicide, The prevention of (XAVIER DE OLIVEIRA), 89.
SÜNNER, PAUL: *The Brain and the Mind*, review, 92.
Surgery and mental hygiene (ALBERTO FARANI), 88.
Sweat secretion in man (MOOG and BUCHHEISTER), 147.
SWEERTS (and PHILIPPE VAN BOGAERT): Congenital regressive rigidity, 352.
Sydenham's chorea, *see* Chorea.
Sympathetic nervous system, *see* Nervous.
Syphilis and mental disease (F. FERGUSON WATSON), 264.
— Meinicke micro-reaction for, for use in a mental hospital (R. M. CLARK), 265.
— Prognostic significance of a primarily negative spinal fluid in (ROBERT SCHMIDT), 160.
Syphilitic paraplegia, *see* Paraplegia.
SYZ, HANS C.: Psychogalvanic studies in sixty-four medical students, 259.
— Psychogalvanic studies in schizophrenia, 370.

TABES: New studies on (GONZALO R. LAFORA), 253.
Tabes treated with tryparsamide (VAN WULFFTEN PALTHE), 161.
— dorsalis: The use of bismuth preparations in the treatment of (L. J. FOSTER and W. A. SMITH), 73.
TAIT, WILLIAM D.: Crime and its causes, 372.
TARGOWLA, R. (and H. CODET): an inveterate wanderer with amputated legs, 81.
— Polymorphic insanities, 176.
TATERKA, H. (and P. SCHUSTER): The anatomy and clinical aspects of pure word-deafness, 249.
TAYLOR, EDWARD W.: *Psychotherapy*, review, 285.
TAYLOR, W. S.: Character and abnormal psychology, 364.
THALBITZER, S.: *Emotion and Insanity*, review, 91.

THOMSON, H. CAMPBELL (and GEORGE RIDDOCH): *Diseases of the Nervous System*, Fourth edition, review, 192.
TIEBOUT, HARRY M. (and ELIZABETH KILPATRICK): A study of psychoses occurring in relation to childbirth, 368.
Toe, Babinski: Theory for the mechanism of the phenomenon of (A. M. RABINER and M. KESCHNER): 150.
Torticollis, Spasmodic, and chronic hepatitis following poisoning by war gases (VAN BOGAERT), 154.
TOULOUSE (MARCHAND and LITVAK): Complex and co-ordinated actions carried out during epileptic crises of cerebral automatism, 71.
Traumatic dementia, *see* Dementia.
Tremor of paralysis agitans type: Action of bulbocapnine on (H. DE JONG and W. HERMAN), 256.
TRENTZSCH, PHILIP J.: Circulatory ratings in mentally deficient adolescent children, 172.
Trigeminal neuralgia, *see* Neuralgia.
Tryparsamide treatment of neurosyphilis (P. A. O'LEARY and S. W. BECKER), 73.
— — of tabes and general paralysis (VAN WULFFTEN PALTHE), 161.
Tuberculoma of the brain (W. P. VAN WAGENEN), 357.
— en plaque (I. PARDEE and L. C. KNOX), 348.
Tumour of the brain: Yellow spinal fluid associated with (M. W. COMFORT), 63.
— Cerebral (glioblastoma) with early psychasthenic syndrome (L. MARCHAND and P. SCHIFF), 249.
— of spinal cord simulated by adhesive spinal arachnoiditis (BYRON and STOOKEY), 355.
Tumours of the upper half of the cervical spinal cord manifested by facial paresis (WALTER M. KRAUS and NATHANIEL E. SHIVERMAN), 132.
— of the frontal lobe (P. ESCUDER NUÑEZ), 248.
— of the meninges, Multiple: Anatomical study of a case of (KRIVY), 64.
— primarily pineal and primarily pontile: Differential diagnosis of (G. HORRAX), 357.
TURNER, W. ALDREN: Observations on epilepsy, 193.

URECHIA, C. I. (and N. ELEKES): Hypophyseal cachexia, 361.

VAGOTONIA and hypoglycæmic reactions (J. M. NIELSEN), 255.
VAN BOGAERT (D'HOLLANDER and RUBBENS): Research on mucous degeneration in the brain, 152.
— Spasmodic torticollis and chronic hepatitis following poisoning by war gases, 154.
— (and SWEERTS): Congenital regressive rigidity, 352.
VAN BOGAERT (and LEY): Erb's lateral sclerosis, 358.
VAN WAGENEN, W. P.: Tuberculoma of the brain, 357.
Vegetative disturbances in post-encephalitic syndromes and their relationship to diencephalic and mesencephalic lesions: changes in basal metabolism (S. NACCARATI), 248.
— nervous therapy, *see* Nervous.
VERCELLINI, G.: On the basal ganglia, 60.
Vienna: Report on the psychotherapeutic outpatient department for nervous and mental disorders, 1922-25 (HEINRICH KOGERER), 180.
VINER, NORMAN (and S. O. MCMURTRY): The arrest of luetic optic atrophy by cisternal injection of mercury, 256.
VISCHER, JOHN W. (and GERTRUDE SARKER): The neurotic goal in post-war neuroses, 77.
VISSER, J. J. (and G. P. FRETS): Case of Alzheimer's disease, 173.
Visual system, Central: Studies on: I. The anatomic projection of the retinal quadrants on the striate cortex of the rabbit (T. J. PUTNAM and I. K. PUTNAM), 243; II. A comparative study of the geniculostriate visual system of mammals (T. J. PUTNAM), 243.

WALTER (and LAX): Treatment of trigeminal neuralgia by X-rays, 160.
Wanderer with amputated legs, an inveterate (R. TARGOWLA and H. CODET), 81.
Wandering Jew who developed delusions of persecution (P. ABELY), 81.
Wassermann reaction in the blood-serum of male admissions to the Hanwell Mental Hospital (G. A. LILLY and E. L. HOPKINS), 371.
WATSON, H. FERGUSON: Syphilis and mental disease, 261.
WATSON, JOHN B.: *Behaviourism*, review, 284.
WEBER, F. PARKES (and O. BODE): Spontaneous subarachnoid hæmorrhage with recovery, 39.
WEIL, A. (and W. M. KRAUS): Human adult and embryo anterior horn cells, 58.
WERTHEIMER, F. I. (and FLORENCE E. HESKETH): *The Significance of the Physical Constitution in Mental Disease*, review, 383.
WEYGANDT, W.: Classification of idiocy and imbecility, 175.
WHITE, WILLIAM A.: Insanity and crime, 174.
— The adjustments and unity of the organism, 258.
WILKINSON, H. J. (and A. N. BURKITT): Nerve endings in adipose tissue, 57.
WILLEY, GORDON F. (and EDWARD A. STRECKER): Prognosis in schizophrenia, 373.
WILSON, S. A. KINNIER (and SAMUEL SMITH COTTRELL): The affective symptomatology of disseminated sclerosis, I.
— *Aphasia*, review, 276.
WIMMER, AUGUST (editor): *Danish Reports*, Volume III, review, 96.
— Tonic eye fits ("oculogyr crises") in chronic epidemic encephalitis, 252.
WINKLER, E.: Significance of Hortega's work on neuroglia for the histopathology of the central nervous system, 151.
WINTHER, KNUD (and C. J. MUNCH-PETERSEN): The spinal fluid sugar in cases of epidemic encephalitis and other nervous disease, 247.
WOLFF, H. G.: Case of astasia-abasia and speech perseveration following carbon monoxide poisoning, 213.
Word-deafness, Pure: Anatomy and clinical aspects of (P. SCHUSTER and B. TATERKA), 249.
WOROBIEW, W.: *Methodik der Untersuchungen von Nervenelementen des makro- und makro mikroskopischen Gebietes*, review, 279.
Wound penetrating both hemispheres followed by extensor rigidity (C. C. COLEMAN), 156.
WRIGHT, WILLIAM W.: Results obtained by the intensive use of bromides in functional psychoses, 89.

X-RAYS in treatment of trigeminal neuralgia (WALTER and LAX), 160.

YOUNG, H. P. T.: Observations on prison psychoses, 367.
YOUNG, PAUL CAMPBELL: An experimental study of mental and physical functions in normal and hypnotic states, 258.

ZENTAY, P. J.: Irresistible mastication during epidemic encephalitis, 357.
ZIEGLER, LLOYD H.: A study of delirium, 368.
